Art Unit: 1713

1.

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-3, 7 and 8, drawn to modified natural rubber, classified in Class 525, subclass 315.

II. Claims 9,11,13,15,16,20 and 22-24 drawn to a process of graft polymerizing natural rubber, classified in Class 525, subclass 311.

III. Claims 10,12,¹⁴₁₇-19,21 and 25-27 drawn to a process of epoxidizing natural ⁷³ rubber, classified in Class 525, subclass 387.

The inventions are distinct, each from the other because of the following reasons:

Inventions Groups II or III and Group I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the processes as claimed can be used to make other and materially different products or (2) that the products as claimed can be made by other and materially different processes (M.P.E.P. § 806.05(f)). In the instant case the products as claimed can be made by the materially different processes of:

a) effecting grafting in the presence of a radiation source and monomer or by pre-irradiating the rubber.

b) effecting epoxidation with a peracid or osmium tetroxide.

Art Unit: 1713

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

A telephone call was made to Garth M. Dahlen on August 15, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
